

Bike positioning

Tuesday, 08 May 2007

Four team riders: Loh Sea Keong, Chi Yin Leung, Yutong and Xing Yan Dong went to the Sports Medical Centre in Amerongen (www.sportarts.org) of team doctor/trainer Edwin Achterberg.

The guys were repositioned on their bicycles with a scientific measuring system, developed by the Mapei training center.

They also got some lessons about training and all got a health check. All looks good and they should all be ready for the heavy months of racing that are coming up...
